### *Supervising Nurse Certification Course*

**This course offers in depth instruction in State regulations, Federal regulations, Palmetto guidelines, and V-Coding; How to perform an admission, discharge, and transfer of a patient; How to document and complete a care coordination, Plan of Care, Medication Profiles, OASIS documentation, and more! This course will teach your Supervising Nurse and RN field nurses how to be compliant with State Regulations and Medicare. We will provide small group activities including auditing a home health dummy medical record and completing an OASIS plan of care for home health. No one has a course like this! A course certificate will be issued at the end of the class.**

Kimberley Kelly RN, BSN, LNC is a graduate of Ohio State University. She graduated with her Bachelor of Science in 1986. Mrs. Kelly has worked in the acute care hospital setting, long-term care setting, and home health. She has worked as a vocational instructor in Florida and is a Department of Human Services Consultant Monitor for the State of Texas for home health agencies. Mrs. Kelly received her Legal Nurse Consultant certification in 1999 and has served as an expert witness in home health and long-term care facility cases. She has worked also as a consultant for home health agencies and hospices since 1997 and is considered a regulatory expert.

Mrs. Kelly is very devoted to helping nurses learn how to be compliant with the Nurse Practice Act, and also with the standards of care set forth by the different industries nurses work in. *“I truly enjoy working with nurses and sharing the knowledge and experience I have gained through my legal nurse consulting work, DHS consultant-monitoring work, and experiences as a Florida and Texas BNE monitor. In my opinion, nurses can always need a tune up when it comes to utilizing excellent supervising skills in the work setting.”*

### ***Course Objectives:***

**The participant will:**

1. **identify the difference between State and Federal regulations.**

2. **be able to identify the time frames required in the State regulations for order signature maintaining clinical records, investigating complaints, initiating care and services.**
3. **be able to complete an OASIS assessment.**
4. **understand the coding requirements for Home Health.**
5. **know the required policies for home health and have a basic understanding of the requirements.**
6. **identify 3 key elements in writing a plan of treatment and completing a case conference (60 day) summary.**
7. **identify 2 strategies to follow during a state survey.**
8. **be able to complete a Home Health plan of care accurately.**
9. **be able to identify the criminal history check rules, systems, and procedures for unlicensed staff in home health.**
10. **achieve a score of 84% or higher on the post-test.**

We hope that you will join us for a 4 day course on supervising skills of the supervising nurse.
